TREMENDOUS PRICE REDUCTION ON APPLE AND PEACH TREES

Since our 1926 catalogue went to press we find our fields of apple and peach trees, are grading up far above what we expected. Not only is the quality better, but we also find we have a much larger yield than we figured at the time this catalogue went to press. Therefore our production cost per tree is greatly reduced, and as has always been our policy, we are passing this remarkable saving on to you in a tremendous price reduction. We know this price reduction will be appreciated doubly coming as it does in a year when most nurseries are lowering their quality, and advancing their prices on these particular items. Following reduced prices effective until further notice:
